## ÅTGÄRDER VID UTRYMNING

Åtställt är skyldig att känna till utrymningsvägarna vid den normala arbetsplatsen.

Utrymningen sker till samlingsplats angiven på översiktsskator i den lokala telefonkatalogen.

Enligt kartorna bildar varje hus eller våningsplan en egen utrymningszon/brandcell. Vid mindre tillbud kan utrymning ske till angränsande plan eller hus.

Inom varje zon/cell skall respektive chef ansvara för ordning, utrymning och återsamling.

Utrymning larmas med ringsignal eller på annat lämpligt sätt.

Utrymningsväg bedöms från fall till fall.

Hiss får ej användas.

Utrym lugnt och i god ordning.

Ytterkläder och andra personliga tillhörigheter bör normalt tas med.

Kontrollera att ingen blir kvar på toalett eller i vilorum.

Chef lämnar zonen sist och kontrollerar att branddörrarna är stängda.

Kontroll sker vid samlingsplatsen. Saknas någon meddelas detta till polis eller räddningsbefälhavare.

Det är viktigt att alla hjälps åt så att utrymningsvägar och dörrar aldrig är blockerade.
